4. [redacted] David Martin, Senate Internal Security Subcommittee staff, called about his earlier requests for any assistance we might give in providing the Subcommittee with the names of suggested witnesses for possible hearings on the communist propaganda apparatus (see Journal of 6 December 1971) and his query as to whether we could be of assistance in providing information to be used in their publication of a handbook of international communist front organizations and espionage activities (see Journal of 13 December).

Mr. Martin also said that the Subcommittee is considering two other projects. One would involve the publication of information on the travels and speeches given by Marshal Grechko, Soviet Minister of Defense, on Soviet military strategy and policy. Martin would like five or six of these speeches and some biographic material on Grechko. He said they would also like our help in pulling together a selection of approximately 10-12 policy speeches by other Soviet leaders covering all aspects of Soviet policy. He mentioned speeches, in addition to Grechko, by Yakubovskiy, Kosygin, and Suslov. I told him I would check on these items and be back in touch with him.
